CANCER INTERGROUP

ANNOUNCEMENT!

GCIG Endometrial Cancer Consensus Conference – Clinical Research

Delegates from all 34 GCIG member groups gathered in Incheon, Korea, November 2nd and 3rd, 2023 to participate in the 1st GCIG Endometrial Cancer Consensus Conference – Clinical Research (ECCC-CR) hosted by KGOG.

For many months prior to the GCIG ECCC-CR, delegates were hard at work developing consensus statements, holding topic group meetings and ultimately recording and viewing presentations. For the first-time, patient advocates were engaged in the GCIG Consensus Conference process! The two full-day working sessions included lively debates and collaborative engagement to edit the draft consensus statements. Overall, the meeting was considered highly successful by participants.

A manuscript is now in development to fully describe the results of the GCIG ECCC-CR. **Please join us at the GCIG General Assembly November 28th, 2023 where GCIG ECCC-CR statements will be shared.**

Thank you to KGOG for hosting this important event, to our sponsors for supporting this event and to all participants for your hard work!

The success of 1st GCIG Endometrial Cancer Consensus Conference – Clinical Research will contribute to the planning for the upcoming **1st GCIG Cervical Cancer Consensus Conference – Clinical Research** to be hosted by CTI October 14, 15th, 2024 in Dublin, Ireland.

GCIG ECCC-CR Executive

ECCC-CR Chair	Carlen Creutzberg
ECCC-CR Co-chair	Jae Weon Kim
ECCC-CR Advisor	Michael Bookman
ECCC-CR Advisor	Gavin Stuart
